## PROFESSIONAL SUMMARY

Full Stack Developer with a BCA degree who designs, builds and deploys fast, SEO-optimized web and mobile applications using React, Next.js, TypeScript, Node.js and PostgreSQL. Delivered a live multi-page platform for a real estate and construction company, managing the full cycle from UI and database to deployment, domain and hosting. Strong command of modern web technologies and an AI-first workflow: I use AI coding assistants for code generation, refactoring, debugging, test writing and documentation, and review every output for quality, security and performance. Based in the UAE and ready to contribute to a product team from day one.

## CORE SKILLS

**Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS, Tailwind CSS, Material UI, Bootstrap, Framer Motion, Responsive Design

**Mobile:** React Native, Expo, Expo Router, React Navigation

**Backend:** Node.js, Express.js, REST API Design, Serverless Functions, Authentication, Postman

**Databases:** PostgreSQL, Prisma ORM, MongoDB, MySQL, SQL Query Optimization

**AI-Assisted Development:** AI coding assistants and LLM tools, prompt engineering, AI-powered code generation, refactoring, debugging, unit test generation, documentation, code review and output validation

**DevOps & Tools:** Git, GitHub (Branching, Pull Requests, Actions), CI/CD, Vercel, Netlify, Render, DigitalOcean, Vite, Webpack, npm/yarn

**SEO & Web Performance:** Technical SEO, Google Search Console, Core Web Vitals optimization, domain and hosting management

**Data & Reporting:** Python (Pandas, NumPy), Excel (Pivot Tables, XLOOKUP, VBA), Power BI

## PROFESSIONAL EXPERIENCE

### Freelance Full Stack Developer

*Independent | Remote & Client-Based*

- Designed, developed and deployed full stack web applications for clients using React, Next.js, TypeScript, Node.js/Express and PostgreSQL/MongoDB.
- Built and launched **fihorizon.in**, a multi-page platform for a real estate and construction firm (Home, About, Blog, Contact), going beyond a standard landing page.
- Implemented technical SEO and performance optimization to improve search visibility and page load speed.
- Created responsive, animated user interfaces with Tailwind CSS and Framer Motion for smooth transitions and a professional look and feel.
- Applied AI-assisted development across the workflow to accelerate delivery, catch bugs earlier and keep documentation current, with manual review of all generated code.
- Managed end-to-end deployment: hosting, domain configuration, professional email setup and Git/GitHub version control, with documented handover for clients.

### Technical & Operations Support (Business Development)

*Fi Horizon Pvt. Ltd. | Jul 2025 – Jul 2026*

- Maintained and monitored daily data and reporting workflows, keeping systems accurate and delivered on time.
- Queried and managed structured data in SQL to support business and investor reporting.
- Automated recurring data preparation with Python and Excel, reducing manual effort and errors.
- Built Power BI and Excel dashboards that gave leadership a clear view of performance metrics.
- Resolved data and reporting issues raised by cross-functional teams.

## PROJECTS

- **Fi Horizon: Real Estate & Construction Platform** | React, Tailwind CSS, Framer Motion, SEO. Live multi-page business website with blog, contact module and custom domain (fihorizon.in).
- **Coffee Cafe App: Mobile Ordering System** | React Native, Expo, Expo Router. Cross-platform mobile app for browsing the menu and placing orders.
- **GitHub Portfolio** | Source code and project repositories at github.com/shahid0980.

## EDUCATION

**Bachelor of Computer Applications (BCA)**, 2022 – 2025

*NIIS Institute of Information Science & Management, Utkal University, Bhubaneswar, India*

## CERTIFICATIONS & LANGUAGES

**Certification:** IBM Data Analytics Professional Certificate, Coursera (in progress)

**Languages:** English, Hindi, Odia, Urdu
